QUARANTINE AT EGYPTIAN AND CONTINENTAL PORTS.

RRANGEMENTS have been made for passing the Company's Steamers, through the SUEZ CANAL in QUARANTINE, thus avoiding any detention in Egypt.
The Homeward Mails are now being landed at VENICE, but the QUARANTINE which is still imposed at this and all other CONTIN-ENTAL PORTS prevents the landing of Passengers, and those travelling by the Company's Steamers are advised to remain on board the Vessel which calls at MARKETILES en route-stopping a few hours only to discharge Cargo and proceed in her direct to LONDON, thus avoiding all QUARANTINE IN

delays and inconveniences, The Passages of the Steamers will be accelerated, and they will not call at MALTA OF GIBRALITAR.

Imperial Dictionary, contains all Chinese characters in practical use, and while alphabetically arranged according to the sounds of the cldest dialect of China, the Cantonese, it gives also the Mandarin pronunciation of all characters explained in the book, so that its usefulness is by no means confined to the Cantonese Dialect, but the work is a practically complete Thesaurus of the whole Written Language of China, ancient and modern, as used all over the Empire, whilst its introductory chapters

serve the purposes of a philological guide to the student. A Supplement, arranged for being bound and used by itself, and containing a List of the Radicals, an Index, and a List of Surnames, will be published and sold separately.

Hongkong, October 19, 1883. THE CHINESE MAIL. THIS paper is now issued every day The subscription is fixed at Four Dollars per annum delivered in Hongkong, or Seven Dollars Fifty Cents in-

cluding postage to Coast ports. It is the first Chinese Newspaper ever issued under murely native direction. The chief support of the paper is of course derived from the native community, THE Undersigned are propared to accept amongst whom also are to be found the guaranters and securities necessary place it on a business and legal footing. The projectors, basing their estimates

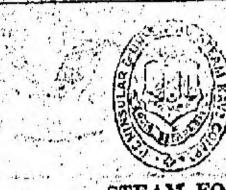

upon the most reliable information from the various Ports in China and Japan,from Australia, California, Singapore, Penang, Saigon, and other places frequented by the Chinese, -consider themselves justified in guaranteeing a large and over-increasing circulation. The advantages offered to advertisers are therefore unusually great, and the foreign community generally will find it to their interest to avail themselves of

The field open to a paper of this description-conducted by native efforts, but progressive and anti-obstructive in toneis almost limitless. It on the one hand commands Chinese belief and interest while on the other it deserves every aid. that can be given to it by foreigners. Like English journals it contains Editorials, with Local, Shipping, and Commercial Nows and Advertisements.

We understand Inspector Swanston leaves here for home by the next English mail on a wellearned leave of absence.

ABOUT 9 o'clock last night the cookhouse

chimney of house No. 140 Queen's Road

Control caught fire and burned for more than half an hour. Some of the fremen and the engineer from the Central Fire Station, got some Police extinctants on to the top of the house and succeeded in extinguishing the fire before it communicated with other parts of the house. The chimnoy was thickly coated with soot, which cansed it to burn with considerable strength. The ground floor of the house is used as p cabinet-maker's shop and had the ire once communicated with this part of the building a serious confingration would probably have occurred, on account of the quantity of inflammable material contained in the shop. The extincteurs, with their chemical charges, were found very effective in thoroughly extinguishing the burning soot. A woman named Lai Ato, wife of a seaman named Toung You Chung, committed suicide on the 20th inst. by swallowing an overdose of prepared opinio. An inquest was held on the body of deceased at the Government Civil Hospital this afternoon by Mr H. E. Wodehouse, the Coroner, and a jury consisting of Messra E. J. Chapman, N. J. dos Remedios, and J. P. Madar. From the evidence of the husband of the deceased, and a cook employed by her, it sppeared that the latter was sent out on the afternoon of the 20th instant to purchase some oplum for her which she shortly afterwards swallowed. She was found by the husband, when he returned to the house in the evening, lying on her bed very bad The hasband administered some assafcetida but that had no effect and decessed shortly after expired. The cup in which the opium had been was found by the bedside. The jury returned a verdict of felo de se.

ABOUT 12.30 this afternoon the fire bell rang out from the No. 5 Station, and it was discovered that a fire had broken out in a house at the top of Wellington Street, No. 170, immediately opposite the back of No. 5 Station. The Government and Volunteer engines were quickly upon the spot, but some difficulty was experienced in getting at the fire which appears to have originated in a back room of the bouse, No. 170, the front of which is a hatter's shop, and to have spread to a cellar under some steps at ASSENCEES arriving in Hongkong, or any the back of the next house, No. 172. The other persons who may desire to con- fire was, however, soon got under and by 2.30 sult the files of local, Chins, Japan, the engines were able to leave the ground: American, English, Indian or Austra- The building suffered little injury from the lian newspapers, are invited to call at effects of the fire, but considerable damage the "Oning Mail" Office, where over was naturally done to the effects inside by sixty newspapers, dailies and weeklies, the quantity of water pumped into the house. How the fire started is still a mystery, and it is rather a curious coincidence that an insurance was effected by the tenant only a few days ago.

> A serrous accident happened on Sept. 8th to Miss Rose Brand, daughter of Mr Henry Brand, a near relative of the Speaker, Sir H. Brand. Miss Brand was walking with her governess in a field near Nab End. on the outskirts of Durham, when a rifle bullet struck her, carrying off the point of our finger and considerably injuring the next one. A party of artillery volunteers were pract tising carbine firing, the firing point being 1,000 yards off, and in a straight line with Miss Brand

A POLL has been taken at Accrington on the question of grocers wine and spirit licences, with the result that four-fifths of the houses holders have voted against the renewal of such licences. Out of 6,000 voting papers distributed, 5,486 were filled up; 4,478 householders declared against, and 222 in favour of the renewal of the licences, while 288 were neutral. The return was recently presented to the licensing justices; who were surprised at the result of the voting, and, in deference to the unmistakable opinion of the inhabitants, adjourned the Beensing seasion for notices to be given of objection to all of licences.

During that period he has travelled over almost the whole of the eighteen provinces : and at the present moment there is probably been availed of long under any circum no foreigner living who knows more of the internal affairs of China, than General Mesny does. For the past fifteen years, he has lived in a part of China where it was impossible for him to have personal, and sometimes even written communication with foreigners; and during that time he has made many expeditions in the interior, and obtained such an immense store of information that would, were it published to the world, throw a vast amount of light on the policy, both internal and external, of China. Such information cannot be made The members of the Club have not yet, I public at the present hour. LOSS OF THE "G. C. TRUFANT. COURT OF ENQUIRY.

A Marine Court of Inquiry was opened the Harbour Master's office this morning to make an enquiry, respecting the abandonment of the British ship G. Trufant, official number 70,698, Gamaliel Thomas, master. The Court was com posed as follows :- Captain Henry George Thomsett, R.N., (President); Lieutenant George W. Balliston, R. PIGS ON BOARD SHIP. Cantain John Woone, master of the S. S. Hainan, appeared on a summon's charging him with having while on the high seas and in the waters of this Colony, on board the British Steamship Hairun, unlawfully, wantonly and cruelly ill-used certain animals, to wit pigs, on or about the 20th of October. James Euanson, P. C. 99, gave avidence to the effect that at 4 p.m. on the 20th inst. he boarded the S. S. Haman, then laying off the Sailor's Home wharf, having just arrived from Holhow. Witness saw two pigs on deck which appeared to have been cruelly treated. Their intestines were protruding from behind and they were bleeding very much. The pigs were being landed at the time witness saw them. Witness took possession of the pigs and brought them on board the Police Hulk; they have since been killed. Defendant

Of course this has come to nothing; but as showing the deep-seated hostility to foreigners that is felt by certain portions of the native community, it may be mentioned that meetings were held in various parts of the city on Friday and Saturday last with the object of devising measures to carry into execution the scheme of venigeance which some undoubtedly entertain. The meetings of Friday were very sparsely. attended, but those of Saturday were well countenanced. What was done, of course. is somewhat uncertain. OPINIONS OF THE PRESS.

"All our learned societies should subscribe to this scholarly and enterprising Re- Patterns, 2. view."-Northern Christian Advocate (U.S.) "The China Review * * * * has an excellent table of contents."-Celestial Empire.

"The Publication always contains subjects of interest to sojourners in the Far East and the present issue will hold favourable if not advantageous comparison, with preceding numbers."-Celestial Empire.

"This number contains several articles of interest and value."-North-China Herald. "The present number of this periodical, * * * * opens with a review of the Foreign Trade of China during 1880. This is rather a new departure for a publication which professes to be purely literary; but considering the comparatively small circulation it enjoys at present among the commercial communities of China, we hall the innovation as likely to recommend the Review to the notice of those who take an interest in few matters beyond mercantile pursuits."-North-China Herald.

"The China Review for September-October maintains the high standard of excellence which characterises that publiand altogether forms a very interesting and readable number. Meteorologists will find an interesting and valuable contribution by Dr. Fritsche, on "the Amount of Precipitation (Rain and Snow) of Peking," showing the results of observations made at the Imperial Russian Observatory at Peking, from 1841 to "Notes on the Dutch Occupation of Formosa," by Mr. Geo. Phillips, contains some interesting information, although much of it is second-hand. The Notices of New Books include a most generous and appreciative review of "The Divine Classic of Nan-Hus," and the Notes and Queries are as usual very interesting."-North-China
